SLOANSTONE SINKS

Low-maintenance sinks for high-traffic settings. Wherever lots of people get together, restrooms have to be ultra-rugged and easy to maintain. **The SloanStone sink system** uses a molded, non-porous solid surface material that eliminates all adhesives and sealants for tough durability and easy repairs.

Project Name:	Camp Luther, Phase 1	Rocky View Schools	Hamilton Wentworth Catholic District School Board
Location:	Mission, B.C.	Southern Alberta	Southern Ontario

Engineer	BPA Montreal	-	LGT, Frederic Cote	-
Contractor	-	SBG Construction	-	Canstar Mechanical

We (Camp Luther Association) are very happy with our SloanStone 4-Station Wall-Mounted Round Front Sink in Matrix White. We were looking for a durable, trough-type sink that is quick and easy to clean without looking too industrial as part of our public bathroom renovation. This sink met all those requirements. We are so pleased with this product. We already have plans to install more of these sinks in the future.

-Nathan Janzen, Camp Luther

SLOAN AER-DEC SINK SYSTEM

Soap, rinse, dry—all three steps, without taking any. The ultimate innovation for any high-end washroom, the AER-DEC combines soap dispenser, faucet, hand dryer and sink basin into one beautiful, touch-free, hygienic, highly efficient system. Visitors can now soap, rinse and dry their hands without reaching for paper towels or walking to a separate dryer—so your stylish restrooms stay neater and require less cleaning. **The AER-DEC** combines the best ideas in commercial sinks into a single state-of-the-art installation. And it combines them in a sleek, contemporary design that looks as fantastic as it works—in any setting

SLOAN DESIGNER SERIES

For upscale settings where your design needs to make a statement, **Sloan's Designer Series** offers an endless array of designs, colors, finishes and functionality. As different as they may be in execution, all Designer Series sinks are visually striking, impeccably crafted and remarkably durable. They bring a clean and modern appeal to restrooms of any size in hotels, restaurants, office suites and high-end retail establishments. All Designer Series sinks are available in Corian or quartz, with more than 100 color options to fit any design vision. After selecting a sink color, enhance that vision by pairing the design with any of Sloan's faucets and soap dispensers. Pair your Designer Series Sink with Sloan faucets and matching soap dispensers.
